

Internationale Bibliographie der Zeitschriftenliteratur
mit Einschluß von Sammelwerken und Zeitungen.
ABTEILUNG C.

XXIII. Supplementband:

BIBLIOGRAPHIE
DER
REZENSIONEN UND REFERATE.

~~~~~ 1915 III. ~~~~~

Nach Büchertiteln (Alphabet der Verfasser) geordnetes Verzeichnis von Besprechungen deutscher und ausländischer Bücher und Karten, die während des Jahres 1915 in zumeist wissenschaftlichen und kritischen Zeitschriften, Zeitungen und Sammelwerken fremdsprachiger Zunge erschienen sind.

## Erklärungen.

(Siehe auch nachstehende Liste und Abkürzungen S. 19 ff.)

---

Die Aufnahme der „Bibliographie“ erfolgt vom 1./I.-30./VI. u. 1./VII.-31./XII. Zum gleichen Halbjahr gehörige, aber erst nach Schluss desselben erscheinende Hefte, sowie etwaige den Bearbeitern bis dahin nicht zugänglich gewesene Hefte oder Bände können erst im nächsten Bande berücksichtigt werden. Der Kürze halber ist für die Zeitschriftennamen eine besondere Nummer eingeführt, die in der Bibliographie fettgedruckt ist. Diese **fettgedruckten Zahlen** verweisen also auf die alphabetische und nach Nummern geordnete **Zeitschriftenliste** am Anfang des Bandes; so zeigt die **fette 1271** beispielsweise an, dass betr. Rezension in der Zeitschrift enthalten ist, welche in der Liste die No. **1271** trägt; es ergibt dies also: „**American journal of medical science**“. — Soweit nicht hier angegeben, ist Bandzahl oder Jahrgang aus der Liste ersichtlich, fehlt diese Angabe auch in der Liste, so handelt es sich um Jahrgang 1915, resp. den Band, der 1915 erschien. — Der in Parenthesen stehende **Name** ist derjenige des Verfassers der betr. Rezension. — Bei Rezensionen und Referaten, die über eine Seite Umfang aufweisen, ist dies im allgemeinen ersichtlich. — Von Unterhaltungsliteratur (Romane, Novellen, Gedichte, Theaterstücke), Predigtliteratur, Andachtsbüchern, Schulbüchern, Kalendern etc. sind im allgemeinen nur solche Rezensionen aufgenommen, die über eine Seite Umfang haben.

Infolge des noch immer währenden europäischen Krieges konnte das Material von im feindlichen Ausland erscheinenden Zeitschriften so gut nicht mehr berücksichtigt werden; es steht zu hoffen, daß alles Fehlende in den folgenden Jahrgängen nachgeholt werden kann.

---

# Verzeichnis

## einer kleinen Anzahl von Zeitschriften etc.,

deren Titel in der Bibliographie durch fettgedruckte Nummern abgekürzt sind.

(Die bedeutend vollständigere mehrere Tausend Titel umfassende Liste der berücksichtigten und in Aussicht genommenen Zeitschriften etc. siehe am Schluß des I. Bandes dieser Bibliographie Abt. B.)

Ein Teil der angeführten Nummern und Bände ist in den folgenden Bänden berücksichtigt.

(Mit \* bezeichnete Zeitschriften werden nicht von den Bearbeitern selbst erledigt, sondern der Inhalt, was Aufsätze anbelangt, berücksichtigt, soweit aus 2. Hand ermittelt.)

Folgende **Abkürzungen** sind zu beachten:

|                              |                                      |                                   |
|------------------------------|--------------------------------------|-----------------------------------|
| A. == Année<br>t., T. = tome | vol., Vol. = volume<br>J. = Jahrgang | ill. = illustriert<br>S. = Series |
|------------------------------|--------------------------------------|-----------------------------------|

(Siehe auch Erklärungen Seite 3, ferner auf Seite 20–31 das Verzeichnis der Abkürzungen, die bei den Zeitschriftentiteln angewandt wurden, die durch Buchstaben etc. abgekürzt sind.)

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
